

WSO2Con Europe 2017

NOVEMBER 6-8

LONDON

In today's digital world, organizations must find innovative ways to compete and thrive.

The need to be able to rapidly innovate and adapt to new opportunities is greater than ever before.

WSO2Con EU will help you identify the right technology that meets today's demand for an agile approach to integration, API management, identity and access management, smart analytics, and Internet of Things - the key ingredients to help you shape your digital business.

WHY ATTEND THIS YEAR

Be inspired by our keynotes presented by industry thought leaders and mingle with individuals that either share the same challenges in their efforts to build a digital enterprise or have found solutions using the WSO2 platform. We don't do all the talking, our customers too will present their stories on successful deployments and key lessons learnt along the way.

KEY TAKEAWAYS

Navigating the digital transformation landscape

The key technology enablers of digital transformation including API management, integration, identity & access management, analytics and IoT

Use cases and inspiring keynotes

Business and technical architectures to build an innovative culture

Implementing and running digital transformation initiatives

Networking opportunities with WSO2 experts and other presenters

INSPIRING KEYNOTES

LEARNING SESSIONS

NETWORKING EVENT

HANDS-ON EXPERIENCES

OXYGEN BAR

CONFERENCE PARTY

SPECIALLY FOR YOU

CIOs • CTOs • Senior Architects • Integration Engineers • Developers

MEET WSO2 EXPERTS AT THE OXYGEN BAR

Get a chance to meet face-to-face with both our solutions architecture team and our engineering team to answer all your questions. Request a demo or simply have meaningful discussions that will help you and your enterprise innovate with WSO2. Oxygen Bar will be running parallel to the sessions on conference day one and day two, so you can schedule a time with a WSO2 expert or simply walk in and see whose free!
